Description When install SAS workstation, comment the line "^trap" failed, it is due to the snmpd.conf file is covered by snmpd.conf.sas1 see below: <pre>sed i-e '/rwcommunity public 127.0.0.1/s/^/#' -e '/com2sec notConfigUser default public/s/^/#' -e 's/^trap/#trap/g' /etc/snmp/snmpd.conf</pre> echo "End kickstart post installation" echo "\$(date '+%d%m-%Y %H:%M:%S')- End of phase post-installation (2/2)" #copy the monitoring of printer with the scripts on SAS, this is as a workaround cp -f /mnt/USB_DRIVE/test/snmpd.conf.sas1 /etc/snmp/snmpd.conf

see below:

```
sed i-e '/rwcommunity public 127.0.0.1/s/^/#' -e '/com2sec notConfigUser default public/s/^/#' -e 's/^trap/#trap/g' /etc/snmp/snmpd.conf
```

echo "End kickstart post installation"
echo "\$(date '+%d%m-%Y %H:%M:%S')- End of phase post-installation (2/2)"
#copy the monitoring of printer with the scripts on SAS, this is as a workaround
cp -f /mnt/USB_DRIVE/test/snmpd.conf.sas1 /etc/snmp/snmpd.conf

fixed and created a new iso file
