The issue of pic1.png has been solved.

see path https://117.78.0.17:8443/svn/gz/tool/Alarm_sheet/tags/1.0.7/runpanel

2.

Pic2.png should be limited, to display all the text in a fixed frame, the font has a certain size, and the cells after the screenshot also have a certain size, so it is impossible to display them completely.
